Hi Karen

Alastair agreed now to extend the closing date for the Lin Huddleston fellowship to end of January. Would you please change the closing date to 29 January 2016?

With thanks
Christiane

Dear Peter

Thanks. I would be very comfortable with a later closing date and suggest that we go for the end of January.

Best wishes

Alastair

Subject: RE: URGENT Lin Huddleston Postdoctoral Research Fellow

The Trustees of the Lin Huddleston Charitable Foundation have met and discussed the proposed advertisement. Whereas we would have preferred a broader base of potential candidates, we accept that the specific fields targeted are worthy disciplines for the post- doctoral research fellow.

We do consider however that the closing date for applications should be extended until at least the middle (if not the end) of January 2016.

Regards

Peter

Dear All

Please accept our apologies for the delay in getting this to you. We would like to proceed to advert with a view of receiving EOIs before the Christmas break with interviews early in 2016. Let me know what you think about this.

Best wishes

Alastair

Alistair

As per our telephone discussion this morning, please send through the draft advertisement and distribution plan today as agreed. Many thanks.

Kind regards

Amanda

Dear Peter,

I want to thank you for your email. This week I have redoubled my efforts to press parts of the University to work together to advertise this position as widely as possible. Frankly these delays are not acceptable and I am doing everything possible to rectify them. Early on Alastair provided a few sample lines to members of his team for an advertisement, we are working with other areas of the University to get a draft together for your review. At the time I thought this would take a very short period of time. We should have all the information needed to post an advertisement and I am pressing hard to realise this incredible vision as soon as possible.

Your email has provided me with the added urgency needed to leverage these various parties. Thank you for your continued commitment and I will continue to do everything in my power to find the best candidate to represent the Lin Huddleston Foundation and the Heart Foundation's goals.

Best wishes,

Weston

Weston

It is now over a month since we met and decided to advertise the above position more broadly to potential candidates. Given it was hoped that an appointment would be made in time for the successful candidate to commence the fellowship in early 2016, could you please advise what is the situation with regard to the advertisement?

Regards

Peter Mann

Subject: Start Date for Lin Huddleston Postdoctoral Research Fellow

Dear Peter, Glenn, and Keith,

I hope you all are doing well! As I noted after Natasha's unfortunate decision, we have opened things up to many other candidates and have discovered some very solid individuals. However, one of our top candidates at this point has indicated that she would not be able to relocate until mid-year 2016 due to family constraints. Would you allow your fellow to formally start then? I wanted to get your take before I advised Alastair to move forward or not.

Once again we have a number of great candidates but I wanted to get your thoughts so that Alastair is aware of any flexibility on formal start date. He is also eager to chat with one or all of you to make sure that you feel comfortable now that Natasha has moved in another direction. He has additional details he would be happy to share if you'd like. Thank you again for your understanding on all this, we want to make sure to get the best individual to realise your vision and are using every connection and channel possible.

Best,

Weston
